Dear colleagues!

It is a great pleasure for us to invite you attending the 2010 KJS Workshop. It will be an opportunity for faculties to exchange current academic and research issues in the field of nanotechnology as well as for students to present their research works in the international meeting. We all wish this meeting will be a cornerstone to develop academic friendship between three Japanese-Korean universities.

Outline of Workshop

In Nov. 2 ~ 3, the 2010 KJS Workshop will be held at Pusan National University, Miryang campus. 18 student speakers will present their works for 15 minutes (including 5 min Q&A session).

This workshop will cover the following topics:
Nanomaterials, Nanodevices and system,
Nano-medical engineering.
