Dear colleagues!

It is a great pleasure for us to invite you in the 2012 KJS Workshop. It will be a good opportunity for faculties to exchange current academic and research issues in the field of nanotechnology as well as for students to present their research works in this international meeting. We all wish that this international workshop will be a cornerstone to develop academic and cultural friendship between Japanese-Korean universities.

Outline of Workshop

In Nov. 13 - 14, the 2012 KJS Workshop will be held at Pusan National University, Busan campus.
14 student speakers will present their works for 15 minutes (including 5 min Q&A session).

SCOPE

This workshop will cover the following topics: Nanomaterials, Nanodevices and Nanosystems, Nano-medical engineering.
